[PROPOSED] INTERIM ORDER

Proposed revision by Commissioner David Noble

Paragraph 99, footnote 9 should read as follows:

Section 2.3(3) of SB 374 states:

In approving any tariff submitted pursuant to subsection 1, the Commission shall determine whether and the extent to which any tariff approved or rates or charges authorized pursuant to this section are applicable to customer-generators who on or before the date on which the cumulative capacity requirement described in paragraph (a) of subsection 1 of NRS 704.773 is met, submitted a complete application to install a net metering system with the service territory of a utility.

As a result, the NEM 1 tariffs are subject to change, just as all other tariffs for non-NEM ratepayers are subject to change as the underlying cost drivers and load change.
