NOTICE OF CONSUMER SESSIONS

On February 18, 2025, Nevada Power Company d/b/a NV Energy (“Nevada Power”) filed with the Public Utilities Commission of Nevada (“Commission”) an application, designated as Docket No. 25-02016 (“Application”), for authority to adjust its annual revenue requirement for general rates charged to all classes of electric customers and for relief properly related thereto.

Nevada Power filed the Application pursuant to the Nevada Revised Statutes (“NRS”) and the Nevada Administrative Code (“NAC”) Chapters 703 and 704, including, but not limited to, NRS 704.100, NRS 704.110, NAC 703.535, NAC 703.2201 through 703.2481, NAC 703.2715, NAC 704.6502 through NAC 704.6546, NAC 704.655 through NAC 704.665, and NAC 704.673 through 704.680. Pursuant to NRS 703.196 and NAC 703.527 *et seq.*, Nevada Power requests that certain material in the Application receive confidential treatment. Nevada Power also requests a deviation from NAC 703.2209(2)(f)(2), which requires that the Regulatory Operations Staff of the Commission convene a mandatory settlement conference at least 14 days prior to the first day of hearing.

In its Application, Nevada Power requests authority to implement rates for its core operations that will result in a \$215.7 million increase in annual revenues. Nevada Power also proposes implementing a daily demand charge rate component for all residential and small commercial rate classes. Nevada Power also requests an increase in its authorized overall rate of

return from the current rate of 7.43 percent to 7.95 percent. Nevada Power additionally requests an increase in its return on equity from the current rate of 9.5 percent to 10.25 percent.

The revenue and rate designs contained in the Application are proposals by Nevada Power and may be contested by parties who will be granted intervenor status. At the hearing, revenue requirements and rate designs may be adopted that are different from those proposed. The Commission may adopt rates that will result in charges to individual customers either higher or lower than the charges currently proposed.
